

The Honors of Excellent Poster

No.	Presentation No.	Presenting Author-Title	Presenting Author-First Name	Presenting Author-Last Name	Presenting Author-Country	Presenting Author-Institution / Organization	Title of Abstract
1	C2-2-9	Dr.	Tanya	Lee	Australia	St Vincent's Hospital, Melbourne	A Systematic Review and Meta-analysis of Radiological Outcomes in Perianal Fistulising Crohn's Disease, Following anti-TNF Therapy
2	C4-2-3	Dr.	Heyson	Chan	Hong Kong	Institute of Digestive Diseases	Clostridium Difficile Infection Complicating Ulcerative Colitis Is Associated With More Frequent Hospitalization and Higher Mortality—Results From Population-based Case-control Study
3	C4-5-2	Dr.	Wing Yan	Mak	Hong Kong	The Chinese University of Hong Kong	Risk of Infections and Hospitalisations in Inflammatory Bowel Disease and Other Immune-mediated Diseases on Thiopurine Therapy: A Population-based Study
4	C3-4-5	Prof.	Silvio	Danese	Italy	Humanitas Research Hospital, Milano	Efficacy and Safety of Ustekinumab as Maintenance Therapy in Ulcerative Colitis: Week 44 Results From UNIFI
5	C3-5-2	Prof.	Silvio	Danese	Italy	Humanitas Research Hospital, Milano	Efficacy in Biologic Failure and Nonbiologic-failure Populations in a Phase 3 Study of Ustekinumab in Moderate-severe Ulcerative Colitis: UNIFI
6	C3-6-9	Prof.	Silvio	Danese	Italy	Humanitas Research Hospital, Milano	Sustained Remission in Patients With Moderate to Severe Ulcerative Colitis: Results From the Phase 3 UNIFI Maintenance Study
7	B1-5	Mr.	Shuji	Hibiya	Japan	Gastroenterology and Hepatology, Tokyo Medical and Dental University	Long-term Inflammation Model Using Human Colonic Organoids
8	C2-1-2	Dr.	Atsuhiko	Hirayama	Japan	Inflammatory Bowel Disease Center, Yokohama City University Medical Center	Remission Induction and Endoscopic Outcome With Oral 5-aminosalicylic Acid in Mild to Moderate Intestinal Behcet's Disease
9	C1-1-2	Dr.	Yuki	Horio	Japan	Department of Inflammatory Bowel Disease, Hyogo College of Medicine, Hyogo, Japan	Perioperative Fungal Endophthalmitis in Inflammatory Bowel Disease Patients
10	B3-3	Dr.	Ami	Kawamoto	Japan	Tokyo Medical and Dental University	Synergy of Notch Signaling and TNF-alpha Leads to Up-regulation of UBD in the Inflamed Intestinal Epithelia of IBD Patients
11	C4-1-8	Dr.	Masahiro	Kishi	Japan	Fukuoka University Chikushi Hospital	Outcomes of Endoscopic Balloon Dilation for Small-bowel Strictures Using Double Balloon Enteroscopy in Patients With Crohn's Disease: A Single Center, Retrospective Study
12	B2-10	Ms.	Chie	Kurihara	Japan	National Defense Medical College	Therapeutic Efficacy of GMA Is Correlated With Colonic Mucosal Expression of Th17-related Cytokines in Ulcerative Colitis
13	C8-8	Dr.	Reiko	Kyodo	Japan	Department of Pediatrics and Adolescent Medicine, Juntendo University, Tokyo, Japan	Pediatric-onset Inflammatory Bowel Disease: Diagnostic and Therapeutic Challenge Over 12 Years in a Tertiary Children's Hospital in Japan
14	C3-3-1	Dr.	Yuichi	Matsuno	Japan	Kyushu university	Short- and Long-term Outcome of Patients Treated With Indigo Naturalis for Inflammatory Bowel Disease: A Single Center Retrospective Study
15	C4-4-10	Dr.	Satoshi	Okada	Japan	Department of Surgical Oncology, The University of Tokyo	Four Cases of Colorectal Neoplasia With Primary Sclerosing Cholangitis-associated Colitis
16	C4-3-10	Dr.	Yamada	Satoshi	Japan	Department of Gastroenterology and Hepatology, Graduate school of Medicine, Kyoto University	Risk Factors of Epstein-Barr Virus and Cytomegalovirus Reactivation in Colonic Mucosa of Patients With Active Ulcerative Colitis
17	C3-2-6	Dr.	Hirohichi	Shimizu	Japan	Tokyo medical and dental university	Efficacy of Infliximab and Calcineurin Inhibitors as Salvage Therapies and Postoperative Outcomes in Patients With Ulcerative Colitis
18	C2-4-5	Dr.	Kento	Takenaka	Japan	Tokyo Medical and Dental University	Small Bowel Endoscopic Healing of Crohn's Disease Treated With anti-TNF Antibodies
19	C5-7	Dr.	Kazuhiro	Watanabe	Japan	Dep. Surgery, Tohoku University Graduate School of Medicine	Long-term Incidence and Characteristics of Intestinal Failure in Crohn's Disease: 50-year Experience
20	C2-3-3	Dr.	Ik Hyun	Jo	South Korea	St.Vincent's Hospital, College of Medicine, The Catholic University of Korea	Oral Sulfate Solution and 2-L Polyethylene Glycol With Ascorbic Acid in a Split Method for Bowel Preparation in Patients With Ulcerative Colitis: A Randomized, Multicenter and Single-blind Clinical Trial
21	C2-6-7	Mr.	Soo Min	Noh	South Korea	Asan Medical Center/Department of Gastroenterology	The Association of Fecal Calprotectin Level and Combined Mucosal and Transmural Healing in Patients With Crohn's Disease
22	C9-10	Dr.	Seung Yong	Shin	South Korea	Chung-Ang University College of Medicine	Compositional Changes in the Gut Microbiota of Korean Inflammatory Bowel Disease Patients and the Relationship to Clinical Phenotypes
23	C1-2-5	Dr.	Chiao-Hsiung	Chuang	Taiwan	Department of Internal Medicine, Medical College and Hospital, Nation Cheng-Kung University	Medication Usage in Patients With Different Classification of Inflammatory Bowel Disease: A Taiwan Society of Inflammatory Bowel Disease (TSIBD) Study
24	C7-10	Ms.	Cheng-Tzu	Hsieh	Taiwan	Institute of Epidemiology and Preventive Medicine, College of Public Health, National Taiwan University	Dietary Beliefs and Information Resources Among Inactive Ulcerative Colitis Patients: A Cross-sectional Survey in Taiwan
25	C1-3-9	Dr.	Hsiang-Chun	Lai	Taiwan	China Medical University Hospital	Latent Tuberculosis and Active Tuberculosis Infection in Patients With Inflammatory Bowel Disease Receiving Biologic Therapy in Central Taiwan
26	C1-4-9	Dr.	Fang-Min	Liao	Taiwan	Saint Paul's Hospital	The Differences Between Pediatric and Adult-onset Inflammatory Bowel Disease in Taiwan
27	B4-10	Ms.	Yu-Wen	Liu	Taiwan	Department of Microbiology and Immunology/National Defense Medical Center	Reciprocal Regulation Between Blimp-1 and IL-21 in Autoimmune Colitis
28	C2-5-8	Dr.	Ping-Ya	Wei	Taiwan	National Taiwan University Hospital	Therapeutic Drug Monitoring Can Help to Guide and Optimize the Treatment for IBD Patients
29	B5-2	Prof.	Linda	Yu	Taiwan	Graduate Institute of Physiology, National Taiwan University College of Medicine	Microbiota Dysbiosis and Virulence-expressing Intraepithelial Escherichia in Colitis Related Colon Tumorigenesis
30	C3-1-2	Prof.	Sheldon	Sloan	United Kingdom	University of Birmingham, Birmingham	Long-term Efficacy of Ustekinumab With and Without Concomitant Immunosuppressants for Crohn's Disease: Results From IM-UNITI Long-term Extension Through 2 Years
