

The Honors of Travel Award

No.	Presentation No.	Presenting Author	Presenting Author First	Presenting Author Last Name	Presenting Author	Presenting Author-Institution / Organization	Title of Abstract	Remark
1	C2-3	Dr.	Tanya	Lee	Australia	St Vincent's Hospital, Melbourne	MRI Outcomes in Perianal Fistulizing Crohn's Disease	
2	C2-6	Mr.	Liu Sheng	Che	China	The South Affiliated Hospital Of Sun Yat-Sen University	Enhanced Mesenteric Fat Volume Is Associated With The Disease Activity in Patients With Crohn's Disease	
3	C2-5	Prof.	Ning	Chen	China	Peking University People's Hospital	Gastrointestinal Ultrasound Is Comparable to Endoscopy and Seems to Be Superior to C-Reactive Protein in Inflammatory Bowel Diseases	
4	C2-6-3	Dr.	Yujun	Chen	China	The First Affiliated Hospital Of Sun Yat-Sen University	Baseline Bowel Stiffness on Real-time Shear Wave Ultrasound Elastography Predicts Response to Infliximab in Patients With Crohn's Disease	
5	B2-2	Ms.	Yujun	Chen	China	Department Of Gastroenterology, Institute Of Surgery Research, Daping Hospital Affiliated To The Army Medical University	Fecal Microbiota Transplantation Ameliorates Experimentally Induced Colitis in Mice by Upregulating AHR	Absence
6	C4-2-6	Dr.	Yiming	He	China	The First Affiliated Hospital Of Sun Yat-Sen University	Long-term Prognosis of Crohn's Disease Complicated by Strictures: The Risk Factors Associated With Surgery and Penetration	
7	C9-9	Dr.	Jun	Hu	China	The 6th Affiliated Hospital Of Syyu	Associated Oral-Gut Microbiota's Analysis Between IBD Patients and Paired Healthy Controls in China	
8	C3-5-4	Mr.	Songlin	Li	China	The Second Hospital Of Dalian Medical University	Fecal Microbiota Transplantation for Treatment of Ulcerative Colitis: A Systematic Review and Meta-Analysis	Absence
9	C7-8	Dr.	Jing	Liu	China	Peking Union Medical College Hospital	Risk and Prevalence of Malnutrition Among Patients With Inflammatory Bowel Disease in China	
10	B4-2	Dr.	Song	Liu	China	Nanjing Drum Tower Hospital, Nanjing University	STING Signaling Controls Th17 Immunity That Participates in Host Defenses in Gut	
11	C3-6-3	Ms.	Xiang	Peng	China	The Sixth Hospital Affiliated Of Sun Yat-Sen University	Thalidomide Can Be Useful and Safe in the Treatment With Refractory Crohn Disease: a Multicenter, Randomized, Double-blind Clinical Trial	
12	B4-7	Dr.	Weisong	Shen	China	Department Of General Surgery, Jinling Hospital, Medical School Of Nanjing University	Prox1 Ameliorates Experimental Chronic Enterocolitis via Stimulation of Lymphatic Function	
13	B2-7	Dr.	Jing	Sun	China	Departments Of Gastroenterology, Wuxi People's Hospital Affiliated To Nanjing Medical University	ZFP7 Expression Is Associated With Intestinal Barrier Disruption in Inflammatory Bowel Disease Through Shank3-PKC $\alpha$ Signaling	Absence
14	B2-5	Dr.	Weimin	Xu	China	Department Of Colorectal Surgery, Xinhua Hospital, Shanghai Jiaotong University School Of Medicine, Shanghai 200092, China	Small Heat Shock Protein Cryst Inhibits Intestinal Mucosal Inflammatory Responses and Protects Barrier Integrity Through Suppressing IKK $\beta$ Activity	
15	B2-9	Ms.	Li	Zeng	China	Department Of Gastroenterology, West China Hospital, Sichuan University, Chengdu, China	Analysis of Fungal Microbiota Dysbiosis in IBD	Absence
16	C4-2-3	Dr.	Heyson	Chan	Hong Kong	Institute Of Digestive Diseases	Clostridium Difficile Infection Complicating Ulcerative Colitis Is Associated With More Frequent Hospitalization and Higher Mortality—Results From Population-based Case-control Study	
17	C2-3-8	Dr.	Queen-Yi	Mak	Hong Kong	Queen Mary Hospital, The University Of Hong Kong	The Use of Fecal Biomarkers in the Early Identification of Organic Colorectal Diseases in Outpatients Presented With Lower Abdominal Symptoms	
18	C4-5-2	Dr.	Wing-Yan	Mak	Hong Kong	The Chinese University Of Hong Kong	Risk of Infections and Hospitalizations in Inflammatory Bowel Disease and Other Immune-mediated Diseases on Thiopurine Therapy: A Population-based Study	
19	C3-6-6	Dr.	Ramit	Mahajan	India	Dayanand Medical College And Hospital, Ludhiana	Fecal Microbiota Transplantation for Maintenance of Remission in Ulcerative Colitis	
20	C7-7	Dr.	Sanchit	Sharma	India	All India Institute Of Medical Sciences	Exclusive Enteral Nutrition Is Effective in Adults With Crohn's Disease: Experience From a Tertiary Care Hospital in India	
21	C3-5-9	Dr.	Arshdeep	Singh	India	Dayanand Medical College And Hospital Ludhiana	Acceptability, Tolerability and Safety of Fecal Microbiota Transplantation in Patients With Active Ulcerative Colitis	
22	C4-2-1	Dr.	Sudheer Kumar	Vaishya	India	All India Institute Of Medical Sciences	Long-Term Disease Course and Complications in Patients With Perianal Fistulizing Crohn's Disease	
23	B3-5	Dr.	Namiko	Hozhi	Japan	Kobe University	Pathological Intestinal Environmental Status of Ulcerative Colitis Detected by In Vitro Human Colonic Microbiota Culture System	
24	B3-3	Dr.	Ami	Kawamoto	Japan	Tokyo Medical And Dental University	Synergy of Notch Signaling and TNF-alpha Leads to Up-regulation of UBD in the Inflamed Intestinal Epithelia of IBD Patients	
25	C4-2-4	Dr.	Akira	Madarame	Japan	Department Of Gastroenterology And Hepatology, Tokyo Medical University	Predictive Factor of Relapse at the Time of Reducing Dose of Oral 5-ASA in Patients With Remission of Ulcerative Colitis	
26	C4-2-2	Dr.	Tomohiro	Minagawa	Japan	Inflammatory Bowel Disease Surgery, Hwago College Of Medicine	Quality of Life and Functional Outcomes in Elderly Patients After Restorative Proctocolectomy for Ulcerative Colitis	
27	C2-6-6	Dr.	Tepei	Omori	Japan	Tokyo Women's Medical University Institute Of Gastroenterology	A Novel Capsule Endoscopic Score Method for Crohn's Disease Correlates With Lewis Score and CCDAI	
28	C4-2-7	Dr.	Ryosuke	Sakemi	Japan	Department Of Gastroenterology, Tobata Kyoritsu Hospital	A Nationwide, Multi-center, Retrospective Study of Symptomatic Small Bowel Stricture in Patients With Crohn's Disease: Factors for Preventing Subsequent Surgery After Endoscopic Balloon Dilation	
29	C5-1	Dr.	Kentaro	Sato	Japan	Department Of Gastroenterological Surgery, Hirotsuki University Graduate School Of Medicine	Risk Factors for Postoperative Complications in Patients With Ulcerative Colitis and Short-term Outcomes of Laparoscopic Surgery	
30	C3-6-2	Dr.	Teruyuki	Takeda	Japan	Inflammatory Bowel Disease Center, Fukuoka University Chikushi Hospital	Clinical Outcome With Ustekinumab in Medically-refractory Crohn's Disease: Real World Experience at a Single Center Cohort	
31	B4-9	Dr.	Shun	Tanemoto	Japan	Keio University School Of Medicine, Gastroenterology And Hepatology	Characterization of Unique Intestinal CD4 <sup>+</sup> CD8 <sup>+</sup> Intestinal T Cells in Mice and Humans	
32	C5-7	Dr.	Kaushik	Watanabe	Japan	Dept. Surgery, Tohoku University Graduate School Of Medicine	Long-term Incidence and Characteristics of Intestinal Failure in Crohn's Disease: 50-year Experience	
33	C3-6-1	Dr.	Yusuke	Yoshimatsu	Japan	Division Of Gastroenterology And Hepatology, Department Of Internal Medicine, Keio University School Of Medicine	Development of Topical Indigo Naturalis for Induction Therapy in Patients With Ulcerative Colitis	
34	C2-6-4	Dr.	Paolo Andrei	Demapelis	Philippines	University Of Santo Tomas Hospital	Validation Study of the Filipino Version of the Short Inflammatory Bowel Disease Questionnaire in Filipino Patients: A Tertiary Hospital Experience	
35	C4-5-3	Dr.	Virgil	Lo	Philippines	University Of Santo Tomas	Determinants of Delivery of Quality Care in Inflammatory Bowel Disease: A Comparative Study Between Trained and Practising Gastroenterologists	
36	C7-4	Dr.	Alysa Shin Yee	Sim	Singapore	Tan Tock Seng Hospital	The Role of Exclusive Enteral Nutrition (EEN) in Pre-operative Optimisation for Elective Surgery in Patients With Crohn's Disease	
37	C2-6-2	Dr.	Se Hyoung	Jung	South Korea	Korea University College Of Medicine	Optical Biopsy of Colon Adenoma Using Artificial Intelligence	
38	B5-3	Dr.	Yu-Kyung	Jun	South Korea	Department Of Internal Medicine, Seoul Metropolitan Government - Seoul National University Boramee Medical Center, Seoul National University College Of Medicine	Clusterin Aggravates Murine Colitis and Colitis-associated Tumor Development Through the Activation of Integrin $\alpha$ 4 $\beta$ 7 Expression	
39	C3-6-7	Dr.	Jeongeok	Kim	South Korea	Department Of Gastroenterology, University Of Ulsan College Of Medicine, Asan Medical Center, Seoul	Efficacy and Safety of Vedolizumab Induction Therapy for Korean Ibd Patients in Whom anti-TNF Treatment Failed: A Prospective Multicenter Cohort Study	
40	B5-4	Dr.	Jaehoon	Lee	South Korea	Hanyang University Guri Hospital	Effects of Manipulation of the Gut Microbiota on Colon Tumorigenesis in AOM-DSS Model	
41	C2-6-7	Mr.	Soo Min	Noh	South Korea	Asan Medical Center/Department Of Gastroenterology	The Association of Fecal Calprotectin Level and Combined Mucosal and Transmural Healing in Patients With Crohn's Disease	
42	C2-2-5	Ms.	Eun Hye	Oh	South Korea	Department Of Gastroenterology, Asan Medical Center, University Of Ulsan College Of Medicine, Seoul	Therapeutic Drug Monitoring Can Be Applied More Effectively With Endoscopic and Radiologic Evaluation in Crohn's Disease on Anti-TNF Maintenance Therapy	
43	C4-2-9	Dr.	Shin Ju	Oh	South Korea	Center For Crohn's And Colitis, Department Of Gastroenterology, Kyung Hee University School Of Medicine	Long-term Outcome of Hospitalized Patients With Acute Severe Ulcerative Colitis Treated With Infliximab: Multicenter Retrospective Cohort Study in Korea	
44	B2-4	Prof.	Hyunsun	Park	South Korea	Seo-Su Boramee Medical Center	A New Crohn's Disease Mouse Model With More Severe Phenotype and Proximal Comorbidity	
45	C3-5-10	Prof.	Sang Hyoung	Park	South Korea	Department Of Gastroenterology, University Of Ulsan College Of Medicine, Asan Medical Center, Seoul, Korea	Distinct Cutoff Values of Adalimumab Trough Levels Are Associated With Different Therapeutic Outcomes in Patients With Inflammatory Bowel Disease	
46	C9-10	Dr.	Seung Yong	Shin	South Korea	Chung-Ang University College Of Medicine	Compositional Changes in the Gut Microbiota of Korean Inflammatory Bowel Disease Patients and the Relationship to Clinical Phenotypes	
47	C7-2	Ms.	Yoo Eun	Yoon	South Korea	Department Of Nutrition And Dietetics, Gangnam Severance Hospital, Yonsei University Health System, Seoul, Korea	Analysis of Nutritional Status and Nutrient Intake in Patients With Inflammatory Bowel Disease: A Prospective, Case-control Study	
48	B4-5	Dr.	I-Tsu	Chyuan	Taiwan	1. Department Of Internal Medicine, Cathay General Hospital, Taipei, Taiwan. 2. School Of Medicine, College Of Medicine, Fu Jen Catholic University, New Taipei City, Taiwan	TRAIL Suppresses Gut Inflammation and Inhibits Colitogenic T Cell Activation in Experimental Colitis via an Apoptosis-independent Pathway	
49	C4-2-8	Dr.	Po-Yen	Hsiao	Taiwan	Department Of Internal Medicine, National Taiwan University Hospital, Taipei And Department Of Internal Medicine, St. Martin De Porres Hospital, Chiayi	Anemia Needs More Attention for Asian Inflammatory Bowel Disease Patients	
50	C3-6-4	Dr.	Tzung-Jun	Tsai	Taiwan	Division Of Gastroenterology, Department Of Medicine, Kaohsiung Veterans General Hospital, Kaohsiung	The Real-world Long-term Effectiveness and Safety of Adalimumab for Moderate-severe Inflammatory bowel Disease in Taiwan: Results From a Multi-center Consortium Database
